Kiss Me In the Dark

Randy Rogers Band

Sailors sail, cowboys ride
Lovers love when the get the chance
Take it slow, turn down the light
Soft and low, let the shadows dance
Baby, don't hold backKiss me in the dark
Roll me through the night
Hold me like you'll never let me goHit me with your heart
Tell the more to lie
Let your skin talk to my soul
Kiss me in the darkLet's strip away everything
Tonight there's nothing getting in our way
The ties are bides, the where's and whys
Take 'em off and leave them all outside
Lock it all outsideKiss me in the dark
Roll me through the night
Hold me like you'll never let me goHit me with your heart
Tell the more to lie
Let your skin talk to my soul
Kiss me in the darkWithout a single a word
Baby, we can say so much
Reveal everything with just one touchKiss me in the dark
Roll me through the night
Hold me like you'll never let me goHit me with your heart
Tell the more to lie
Let your skin talk to my soul
Kiss me in the dark, kiss me in the dark
Yeah
