

We Stay Together

Kaiser Chiefs

(If it's coming then we'll take it as it comes
If it's going, then we'll wave it goodbye
Waiting for a train that never comes, you're waiting for a train that never comes) We break it down, into its parts
We toured around, and break our hearts
We laughed along with all of the jokes (haha)
We raced along and stayed so close But through it all, yeah
We stay together
We stay together I know that
My love got no other love,
My love got no other love,
She got
She got a lot My love got no other love,
My love got no other love,
She got
She got a home And there's a light on that will never go out,
And when the night's gone not a shadow of doubt about you, about you
And there's a time bomb and it's gunna go off,
Then we'll disarm it 'cos I'm so better off with you, here with you We break it down, into its parts
We risk it all through prison bars
We laid it down there to rest and hold it until it's drowned But more than that,
We stay together
We stay together I know that,
My love got no other love
My love got no other love,
She got
She got a lot My love got no other love,
My love got no other love
She got a home And there's a light on that will never go out,
And when the night's gone without a shadow of doubt
About you, about you
And there's a time bomb and it's gunna go off,
Then we'll disarm it 'cos I'm so better off with you, here with you And there's a light on that will never go out,
And when the night's gone without a shadow of doubt,
About you, about you
And there's a time bomb and it's gunna go off,
Then we'll disarm it 'cos I'm so better off with you, here with you We stay together
We stay together
We stay together

We stay together
