

If This Dance Catches On

Mounties

He was a man of a town
He was a man of a town
That's why we keep him around
To track revolving trends in the ladies' wish list
It was the funniest sound
When his life hit the ground
Chasing hyped up claims with his cocaine instincts
You want to tell me you love me
But I'm not around
(Go with a different beat, go with a different beat)
You wanna hear the whole story
So just write it down
(Go with a different beat, go with a different beat)
The telephone is hollow and empty
And I'm taking time to sort through some actions
(Go with a different beat, go with a different beat)
CHORUS:
And we'll just wait and see, wait and see
If this dance catches on (catches on)
(x 3) Don't want the pressure to show
Anything other than good to go
I wanna be that/in that show
That guy/Right there beside the guy that everyone knows
A tainted angelic glow
A faded curtain in a dirty window
Laying face down in the snow
He's lost his long lost love and everyone knows
CHORUS
(x3) Human conditioning your hair
Peppermint, what you did was care
Caught a bullet in your teeth
Then _?_ _?_ six hands and six feet.
CHORUS
(x2) CHORUS
(x1) We will wait, yeah we will wait
If this dance catches on
Yeah we will wait, yeah we will wait
If this dance catches on
Yeah we will wait
We will wait and see, wait and see
If this dance catches on
Yeah we will wait and see, wait and see
If this dance catches on
Yeah we will wait and see, wait and see
If this dance catches on
Yeah we will wait and see, wait and see
If this dance catches on
And we'll just wait and (catches) see, wait and (catches on) see

If this dance catches on
(x3)And we'll just wait and see, wait and see
If this dance catches on
