Would You Be Willing

Dog's Eye View

Would you be willing
To take me for my word?
If I told you I was falling
If I told you things I'm sure you've heardWould you stand up and walk away?
Would you state your name?
Please don't laugh at what I sayWell, I'm singing you this love song
I'm sure somebody's sang for someone else
And I know there's nothing new about it
Except maybe I haven't felt this waySo don't stand up and walk away
Please just state your name
Don't laugh at what I say
Your nameWell, it's hard for me to say things
Without joking around and around and around
And it's hard for me to look at you
Without feeling like I've been drowning at seaSo please don't stand up and walk away
Just state your name
Please don't laugh at what I say
Your nameWould you be willing?
Your name
Would you be willing?
