

# Dream Machines

## Electric Skychurch

We don't ask for much  
Just what was promised us  
We don't want the world  
Just a house and a little girl  
Why I moved to France  
Nothing here was built to last  
What you want is what you chose  
You can't have both  
You can't have both  
I've been dreaming of dropping out  
Will it matter if I'm around?  
If you want to tell me now  
I've been dreaming of dropping out  
All we need is light  
What's mine is yours and yours is mine  
And we got it right  
No one taught us how to fight  
What you want is what you chose  
You can't have both  
You can't have both  
I've been dreaming of dropping out  
Will it matter if I'm around?  
If you're scared to tell me now  
I've been dreaming of dropping out  
We'll grow our hair  
Cut our ties  
Grow our hair  
Cut our ties  
Grow our hair  
Cut our ties  
Grow our hair
