

All I See

Brenna

Oh, oh, oh
Oh, oh, oh
Weekend has arrived
Everybody's trying to find something to get into
 My friends wanna go out
 But I can't cancel my plans
 Got a date with my baby
He's taking me out so I'm gonna catch up with you
 Some other day, gotta go
 Can't make him wait tonight
 Have to make sure I'm looking hot
'Cause we're going to our favorite spot
 Till the morning we're gonna rock
 Boy, you knock me up, yeah
My baby, doesn't matter what's going on or who's around us
 All I see is you
Right now they're playing our song, dance floor is ours
 All I see is you
 The DJ's got me feeling like I did
 When I first met you
And there's nothing that can break us apart in two
 'Cause all I see is you
 I get lost in time
When I'm looking in your eyes and we're body to body
 I don't want you to rush
 'Cause you're feeling like heaven to me
 Follow the rhythm and keep it real close
 In the dark everything goes
 Nothing's better than your touch
 Don't stop, baby, 'cause we've just begun
 Have to make sure I'm looking hot
 'Cause we're going to our favorite spot
 Till the morning we're gonna rock
 Boy, you knock me up, yeah
My baby, doesn't matter what's going on or who's around us
 All I see is you
Right now they're playing our song, dance floor is ours
 All I see is you
 The DJ's got me feeling like I did

When I first met you
And there's nothing that can break us apart in two
'Cause all I see is you
Oh, oh, oh
Please don't let me go, oh, oh
My love for you is growing more and more and more
As we move across the floor, oh, oh
'Cause all I see is you
'Cause all I see is you
DJ, spin my record again
My baby, doesn't matter what's going on or who's around us
All I see is you
Right now they're playing our song, dance floor is ours
All I see is you
The DJ's got me feeling like I did
When I first met you
And there's nothing that can break us apart in two
'Cause all I see is you
My baby, doesn't matter what's going on or who's around us
All I see is you
Right now they're playing our song, dance floor is ours
All I see is you
The DJ's got me feeling like I did
When I first met you
And there's nothing that can break us apart in two
'Cause all I see is you
