Go On...miss Me

Gloriana

Back when I was seventeen
You were my high school dream
And boy, boy I was stupid
First kiss in your pickup truck
Thought I was the one you loved
And boy, boy I was dumb

You played me and baby
You did me oh so wrong
You were huggin' and squeezin'
Some other girl all night long

[Chorus]
Whoa, one day
You're gonna miss me
You're gonna try and try to get me back again
Whoa, no way
You'll ever trick me
You'll never pull me in to fall for you again
'Cause your no good cheating heart will never win
So go on, miss me

I heard you're not doing great
Still living at your parents' place
And boy, boy that's just stupid
On my own and I'm all grown up
You're still driving that rusty truck
And boy, boy you're so dumb

You lost me, you're sorry
You got it all so wrong
Now you're hurtin' and cryin'
'Cause baby I'm long gone

[Chorus]

Leaving messages on my phone
Sending flowers and writing love notes
Told you once, I'll say it again

Your no good, cheating days are at an end

Whoa, one day
You're gonna miss me
You're gonna try and try to get me back again
Whoa, one day
You're gonna miss me
You'll wanna try to be my man and win me back again

No no, no way
You'll ever trick me
You'll never pull me in to fall for you again
'Cause your no good cheating heart will never win
And your no good cheating days are at an end
So go on, miss me
Go on, miss me
You'll never get me back again
