

# Breeze

## Settlefish

Abandon your safety belt  
Horizon could be possible just to emancipate yourself from the mess we're in  
I've locked the brakes for good  
Now debate can finally start about decisions edging rough now recreate a universe  
It's like a second skip of blank  
It's like a moment of bliss  
Free falling towards active transitions won't escape me  
I shot the breeze  
Avant garde alignment is a freer form of cloud to reshape and now remould  
To remould and now reshape  
Into a splash of water bubbles
