

# Town

## Meat Puppets

Nowhere an hour is the speed that I fly  
Greeted by vapors when I do arrive  
Don't mind my story  
It'll only drag you downIn a one trick town  
One sick clown  
Instincts on a high wire  
The rain flying around  
In a one trick townThe sun is a spark from the axe that I grind  
The bright night of wishes, a wish to unwind  
The river in winter has froze to the groundTo the one trick town  
One sick clown  
Instincts on a high wire  
The rain flying around  
In a one trick townNowhere an hour is the speed that I fly  
Greeted by vapors when I do arrive  
Don't mind the memories  
They will only drag you downIn a one trick town  
One sick clown  
Instincts on a high wire  
The rain flying around  
In a one trick townOne trick town  
Don't mind the memories  
They will only drag you downIn a one trick town  
Don't mind the memories  
They will only drag you downIn a one trick town
