Pit of Vipers

Simon Curtis

I can almost feel the tick like clockwork
Hearing all the voices in my head each time I go
There's a game they play that I'm not part of
Tearing at the weaknesses and all the faults they knowIt's impossible to navigate around
It's inevitable that you'll fall in
It's improbable i'll ever come back down
I fell in and now I think I might drownI'm falling deep into a pit of vipers
Over me, over me and I can't break free
Secrets run deep when you're in a pit of vipers
Slithering, whispering, feel the venom poisoning meNow I must admit that I have played a part
In the way that things have gotten out of hand
But it's escalated almost to an art
I want to fix him but I don't think I canI'm falling deep into a pit of vipers
Over me, over me and I can't break free
Secrets run deep when you're in a pit of vipers
Slithering, whispering, feel the venom poisoning meSlither, slither, slither
Put your fangs into my back
Slither, slither, slither
Think I don't know where you're atI use you, I'm no good, need to be in control
I said I use you, I'm no good, need to be in controlI'm falling deep into a pit of vipers
Over me, over me and I can't break free
Secrets run deep when you're in a pit of vipers
Slithering, whispering, feel the venom poisoning meI'm falling deep into a pit of vipers
Over me, over me and I can't break free
Secrets run deep when you're in a pit of vipers
Slithering, whispering, feel the venom poisoning meSlither, slither, slither
Put your fangs into my back
Slither, slither, slither
Think I don't know where you're atI use you, I'm no good, need to be in control
I said I use you, I'm no good, need to be in controlThis is how you make me feel
