

Take Me Into Your Heart

Karl Valentine

Take me into your heart
Take me into your heart
Take me into your heart,
I can see, I can see, what you need

Something's been happening
It seems pretty clear
But you can't say nothing
Because you know she won't hear

It's a heartbreak
It's the only thing you fear

You feel pretty silly,
when you stand all alone
When you stand in the open
You can freeze to the bone

It's a sad shame
When you know you're all alone

Just when you saw love standing there
It's just a dream you cannot share
Are you aware?
Don't you despair

Don't get so discouraged
Don't get so confused
Don't take it too personal
You're feeling abused

Just hang in there
And see this whole thing through

To some it's like magic
They're under spell
To some it's just fate
But you never can tell

Is it real love,

or something you had to sell?

Just when you saw love standing there

It's just a dream you cannot share

Are you aware?

Don't you despair
