

# Be With Me

[J. Holiday](#)

Advisory - the following lyrics contain explicit language:

Yo, look I know we been, been friends for a minute  
And I think it's time we trust the situation  
I know how you feel, you know how I feel  
But I just wanna put it out there I gotta say you're a hell of a woman  
Like a new drop in the summer  
Pull me over the weather when I'm under  
Did you know you do that for me? And I wonder sometimes  
Why you be takin' your time  
I, I know it's gon be right  
Girl, I put that on my life You be givin' me the coldest shoulder  
'Coz you don't want your emotions takin' over  
Instead of talkin' 'bout you lookin' for a soldier  
Are you tryna say you don't see that in me? I know that we're friends  
But taken it there won't mess it up  
Please just trust in me  
Girl, I got you, can't you see? Ooh, ooh, baby girl, it's killin' me  
Why you tryna act like you don't  
Like you don't see what I see?  
You should be with, you should be with me It's your heart but before you give it to someone  
Someone who don't deserve it  
Just don't hurt it, baby  
You should be with me Like a scene from my favorite movie  
Hard to control myself when you next to me  
If it's against the law to love, you sue me  
Girl, this whole thing got me in disbelief I know it takes time  
To build somethin' that's worthwhile  
But just in case you didn't hear me  
I'ma say it again more clearly I need ya like a bed need some covers  
I need ya, baby, we need each other  
Girl, I need ya like a comedian needs a joke  
I need ya baby, I need you the most  
Baby, my heart's beatin', can't you hear it?

If I'm the music, you're my lyrics  
Ooh, ooh, baby girl, it's killin' me  
Why you tryna act like you don't  
Like you don't see what I see?  
You should be with, you should be with me  
It's your heart but before you give it to someone  
Someone who don't deserve it  
Just don't hurt it, baby  
You should be with me  
I know you're lookin' out for you  
But you gotta understand  
That I'm lookin' out for us too  
Ooh, ooh, ooh, ooh  
So, baby, you should just give me your heart  
And I swear I won't tear it apart, no  
Ooh, ooh, baby girl, it's killin' me  
Why you tryna act like you don't  
Like you don't see what I see?  
You should be with, you should be with me  
It's your heart but before you give it to someone  
Someone who don't deserve it  
Just don't hurt it, baby  
You should be with me  
Baby girl, it's killin' me  
Why you tryna act like you don't  
Like you don't see what I see?  
You should be with, you should be with me  
It's your heart but before you give it to someone  
Someone who don't deserve it  
Just don't hurt it, baby  
You should be with me  
Baby girl, it's killin' me  
Why you tryna act like you don't  
Like you don't see what I see?  
You should be with, you should be with me  
It's your heart but before you give it to someone  
Someone who don't deserve it  
Just don't hurt it, baby  
You should be with me
