Robot

Never Shout Never

I'm just a robot
I have no fears
I lack emotions and I shed no tears
I'm just a coma, a deadly sleep
My heart is breaking but I just can't weep
So dear I want you to cry
And I want you to cry for me
I don't want you to lie to me
And say that it will be alright
I want you to say goodbye
But girl, I want you to mean it
I want you to find a man who's gonna treat you right
I'm just a virus inside your head
You lay awake in your hospital bed
I ain't no doctor, but I know you're sick
Sick of the bullshit and the state I'm in
So dear I want you to cry
And I want you to cry for me
I don't want you to lie to me

And say that it will be alright
I want you to say goodbye
But girl, I want you to mean it
I want you to find a man who's gonna treat you right
I'll never treat you right
No, no, no, no, no, no
I want you to cry
And I want you to cry for me
I don't want you to lie to me
And say that it will be alright
I want you to say goodbye
But girl, I want you to mean it
I want you to find a man who's gonna treat you right
I want you to cry
And I want you to cry for me
I don't want you to lie to me
And say that it will be alright
I want you to say goodbye
But girl, I want you to mean it

I want you to find a man who's gonna treat you right
