Closest I Could Get

Gold Fields

(Verse)
Do you see me as a ghost
Standing between the sun clouds,
Hiding in the night,
Running from the light.Can you hear me in the air
Waking up your stare,
Running across the water,
Building ways to take me there.(Chorus)
And thats the closest I could get,
Thats the closest I could get.(Verse)
I can see you on the sand,
I feel the coldness of your hands
Falling through your fingers
Back into the land.I can taste the salty air
Drying up your lips.
A tear falls down your sober cheek
And runs between your kiss.(Chorus)
And thats the closest I could get,
Thats the closest I could get.
Thats the closest I could get.
Thats the closest I could get.
Thats the closest I could get.
Thats the closest I could get.
Thats the closest I could get.
Thats the closest I could get.(Verse)
I can feel you in the sun,
Soaking to everyone,
Showing us a sign,
Beginning of life,
Beginning of a life,
Beginning of a life,
Beginning of a life,
Beginning of a life.(Chorus)
And thats the closest I could get.
Thats the closest I could get.
Thats the closest I could get.
Thats the closest I could get.
Thats the closest I could get.
Thats the closest I could get.

Thats the closest I could get.
Thats the closest I could get.
