

# Burn Bright

## T.U.G.G.

So give me all youve got,  
I can take it  
We walked alone in your city lights  
Did you make it?  
We lit the fire and its burning bright  
Did you take it?  
Kissed all the boys in your city lights  
Did you make it?  
Left all the stars in your city nights  
Can you fake it?  
I lost my way in your city lights  
Count your men  
We stole the fire  
And its burning bright  
So give me all youve got,  
I can take it  
We walked around in your city lights  
Cause it makes me who I am  
We lit the fire  
And its burning bright  
Not ashamed of what I am  
I took the pills  
For these empty nights  
Cause it makes me who I am  
They always told me that  
You never get to heaven  
With a love like yours  
Well if youre lost little boy,  
The cameras pull you right back down, yeah  
Its like a chemical burn,  
Im peeling off your skin, yeah  
And when you see your face  
Well youll never be the same again, yeah  
Cause if you just stop breathing,  
All stop, stop my heart  
Ill stop breathing too  
So give me all youve got,  
I can take it  
We walked around in your city lights

Cause it makes me who I am  
We lit the fire,  
And its burning bright  
Not ashamed of what I am,  
Id trade the world for your city nights  
Cause it makes me who I am  
And it makes me who I am  
And it makes me who I am  
And though I missed the chance for this,  
I confess that I cant wait,  
Until its gone  
No I mean this every single day  
So go when you cant burn inside  
Cause the world dont need  
Another hopeless cause  
Though it makes me who I am  
Cause it makes me who I am  
And you made me who I am  
And you made me who I am  
Be afraid of what I am  
I can take it  
We walked around in your city lights,  
Cause it makes me who I am  
I burned it all and Ill do it right  
Cause Ill never burn away,  
Ill steal the blood from your city nights  
Cause it makes me who I am  
Who I am
