

# Suddenly Last Summer (Re-Recorded / Remastered)

## The Motels

It happened one summer  
It happened one time  
It happened forever  
For a short timeA place for a moment  
An end to dream  
Forever I loved you  
Forever it seemedOne summer never ends  
One summer never began  
It keeps me standing still  
It takes all my will  
And then suddenly last summerSometimes I never leave  
But sometimes I would  
Sometimes I stay too long  
Sometimes I wouldSometimes it frightens me  
Sometimes it would  
Sometimes I'm all alone  
And wish that I couldOne summer never ends  
One summer never begins  
It keeps me standing still  
It takes all my will  
And then suddenly last summer  
And then suddenly last summerOne summer never ends  
One summer never begins  
It keeps me standing still  
It takes all my will  
And then suddenly last summerAnd then suddenly last summer  
Until suddenly last summerAnd then suddenly last summer  
Until suddenly last summer  
It happened suddenly last summer
