

Indiana Feeling

Revolution Smile

You're bleeding on something to better
Yourself all alone
I'm better than this I feel special
I'm sick of the role'Cause you're mixed up you make yourself so cool
You save me from your sentimental cureI wanted to be by myself now
I'm sick of the role
You better believe that I'm over
Your every day'Cause you're mixed up you make yourself so cool
You save me from your sentimental cureAnd you're mixed up you make me feel
Exactly the way you wanna feel
You're mixed up you make yourself so cool'Cause you're mixed up you make yourself so cool
You save me from your sentimental cure
