

# Rabies

## Gang Green

Well I'm so sick  
I'm sicker than you  
Closing walls  
What can I do  
Well I'm so sick  
I'm sicker than you  
Closing walls  
What can I do  
And I feel them  
in my mind  
And I feel them  
All the time  
Maybe they'll feed on enemies  
Save me from your rabies  
and someday you'll have to face me  
and there'll be no protection against me  
Well I'm tasting you  
you're tasting me  
I'm taking pleasure in the enemy

And I feel them  
in my mind  
And I feel them  
All the time  
Maybe they'll feed on enemies  
save me from your rabies  
and someday you'll have to face me  
and there'll be no protection against me  
And I feel them  
in my mind  
and i feel them  
all the time  
all the time  
I feel them  
there'll be no protection against me  
Maybe they'll feed on enemies  
Save me from your rabies  
and someday you'll have to face me  
there'll be no protection against me
