

# Flare Gun

## In Tall Buildings

No such a shame has rusting over  
I see four or five and I'm still under  
I'll pick out the parts and place them in row  
See, yours are all in line, mine in tow

It's really no bother

It's no botherNot so inclined to lean on your flare gun  
It's not a crime to reach for your flare gunNow put yourself in these shoes for a while

You got us into it, you get us out

It's really no bother

It's no botherNot so inclined to lean on your flag gun  
It's not a crime to reach for your flare gun  
Not so inclined to lean on your flare gun  
It's not a crime to reach for your flare gun
