

# **Illuminate**

## **The Kite String Tangle & Dustin Tebbutt**

As the words fade away  
I still believe what your eyes say  
Fall into your arms  
I still see you illuminate  
As I drop my guard  
(Fall into your arms)

Your first day at the gallery  
Didn't think I'd ever know where your body ends  
(Fall into your arms)  
Time slows for the last breath  
while everything is shattering  
(Fall into your arms)  
Everything is shattering  
(Fall into your arms)  
Start telling me you'll meet me there  
(Fall into your arms)  
(Fall into your arms)

I wont make it, keep it to her own  
(I know it's not easy)  
It's been emotional, you can't see the road  
(I know it's not easy)  
So stop fearing, it wont be the war  
Could you just let us grow  
You won't let us go  
To set us all apart

I wont make it, keep it to her own  
(I know it's not easy)  
It's been emotional, we can't see the road  
(I know it's not easy)  
So stop fearing, it wont be the war  
Could you just let us grow  
You won't let us go  
To set us all apart
