Hostage

Digital Summer

It's alright
To hate me
I don't mind
If you leave
But it's not alright for you to say you love me
And this time
I finally had enough
'Cause I tried
I should have given up
Now I'm just another casualty

Take what you want
Just let me go
Take what you need
And leave me alone

I don't want to be the hostage, anymore
We both know how it ends
And been there before
I don't want to be the victim, of this pointless game
It's over and over
It's always the same
I don't want to be the hostage
Hostage

Damage
That we've done
Has left me
So numb
I'm a prisoner in your manipulation
And I don't care now
Whatever I have to do
To find a way out
To escape from you
And I am burning through

Take what you want
Just let me go
Take what you need

And leave me alone

I don't want to be the hostage, anymore
We both know how it ends
And been there before
I don't want to be the victim, of this pointless game
It's over and over
It's always the same

And I can't believe
That I could be so blind and let this happen to me
And I fail to see
The warning signs telling me what I should have known
Please just let me go

I don't want to be the hostage, anymore
We both know how it ends
And been there before
I don't want to be the victim, of this pointless game
It's over and over
It's always the same
I don't want to be the hostage
I don't want to be just another victim
I'm not your hostage
Hostage
Hostage
