Friends Like Mine

The Donnas

C'mon and show me
That you really know me
So close, so tight
At least full tonightTurning silver and gold
Into rubber and glue
Not supposed to let it get to you
It's easy to say but hard to doWhen you roll back into town
They'll all be around just to show you
That friends like mine will never let you down
Until you hit the ground
And they don't know youTake what you can borrow
But what about tomorrow
Just have to wait and see
What's in it for meTurning silver and gold
Into rubber and glue
Not supposed to let it get to you
It's easy to say but hard to doWhen you roll back into town
They'll all be around just to show you
That friends like mine will never let you down
Until you hit the groundYour an open book
Here's a mirror, take a look
Don't like what you see?
Don't come to meWhen you roll back into town
They'll all be around just to show you
That friends like mine will never let you down
Until you hit the groundAnd they don't know you
Friends like mine will never let you down
And they don't know you
