

# Fast Blood

## Frightened Rabbit

goodnight, it's stroke time  
let's get paralysed  
down both sides.  
snake hips, red city kids  
and your black eyes, roll back  
midnight organ fight  
yours gives into mine, it's alright  
and the fast bloodhurricanes through me  
then it rips my roof away  
with her fire hiss  
this is the longest kiss goodnightnow I, I tremble  
because this humble  
has become biblical  
I feel like I just died twice  
and was reborn again, born for our dirty sins  
and the fast blood, fast blood, fast bloodhurricanes through me  
then it rips my roof away  
with her fire hiss  
this is the longest kiss goodnight  
goodnightand then I fall down  
I stumble  
and she said, she said to me  
she said goodnight.
