

# Get It Wet

## Twista

Advisory - the following lyrics contain explicit language:

Dear love I was thinking how I should be starting this  
Mean difference of ways still I can light you like an arsonist  
Put my heart in this particularly funny when we start to kiss marvelous  
How I see you in the cut chillin' with your homies gettin' fucked up  
I got fantasies of you carrying me home  
I hope you stayin' alone I'm into givin' pleasure  
Echoin' rhythms of my manly moans  
Don't be playin' me wrong I'm too grown for games,  
Mental manipulation ain't the occupation for the playa you facin' I'm strong  
'Cause you see I don't be really quite comin' on the same  
Boldly and bodily fluids with every word that 'curs  
Girl you deserve some herb and company to be with,  
Fuck whoever you were gonna leave with I'm the one you should see shit,  
I found some love like Adam and Eve shit  
Who you should be with your body I squeeze quick  
Stick through the sheets are your arms and see don't be alarmed  
If I make you feel good all over  
'Cause I be droppin' the bomb that's 'cause I'm in the beyond  
Even though niggaz in the hood is all soldiers  
You still gonna suffer the consequences  
Defenseless thinkin' about becomin' my wife  
If I rock you tonight you be the love of my life  
'Cause I be huggin' you like I'm huggin' the mic  
Plus I'm the one that's rubbin' you right  
And able to stick my tongue up in your navel and lick till you drop  
Even though I like to hit the twat  
I'm realizin' there's a variation of ways I can get you hot  
I'm in to learnin' you so pick the spot,  
I'll get pleasure too but let me hush and let the lust get a check  
I know you don't want me to hit it yet, but don't act like its a crime  
'Cause it hasn't been committed yet,  
But baby won't you let me get it what? Get it wet (Get it wet) Gimme some Tang and AlizÃ©

Let me tickle your body, after the party we can pleasure will you come let me

(Get it wet)

Let me saturate you body with honey and lick it up

Stick it up after release and let it rupt' is it enough to

(Get it wet)

Try to marinate your mind what's up am I deserving your love

Just 'cause we up in the club don't think you bogus if you let me

(Get it wet)

But you be the only one I be thinkin' of gimme a hug you got me sprung in love Last time I heard you was

playing with emotions and po' pimpin'

All up in the clubs smokin' doves fuckin' hella women

Now negro, what's your steelo you want to get with me though

Them mad at them zeros and lo-dos

You ain't no 'bout dem, weed needs, pussy fieds, Lex keys

For Ms. Kane see a half is for my mommy fuck Tommy

He ain't tryin to ask now he lookin'

Smooth head got you right in the bed

You need another lover like you need a hole in the head

Instead of all this talkin let your tongue do the walkin' on down this clitoris

Fuckin' with a wild hundreds bitch ain't that some shit

Guaranteed to get you wet

Simple kiss from P.T. Lips it won't take a gang of gifts just to hit this

Come take a little glimpse of these sweet hips

When that ass in the air cause an eclipse, on the freak shit

What you know about this slick clit, send you in a thang when you feel this

Bitch run from a virgin sup a 'burban get the derb 'n leave you hurtin' fo' certain

Steady splurgin' when I'm servin', get you wetter than a Persian the X-rated version

I'm urgin' but I ain't thinkin' you can get it yet

But if you good in a minute you can get it what?

Get it wet (Get it wet) Gimme some Tang and AlizÃ©

Let me tickle your body, after the party we can pleasure will you come let me

(Get it wet)

Let me saturate you body with honey and lick it up

Stick it up after release and let it rupt' is it enough to

(Get it wet)

Try to marinate your mind what's up am I deserving your love

Just 'cause we up in the club don't think you bogus if you let me

(Get it wet)

But you be the only one I be thinkin' of gimme a hug you got me sprung in love Got to be more careful don't

hurt 'em girl you sexy when you mad

Then nigga come hurt me baby with a splash aggression of nana I've never had

As I enter the scene with aroma fresh cologne all that carob on

Flamin' up trippin' while stanky roll on

Herringbone on gettin' my pose on to the dome strong take a sip of liquor I'm on bone

Huggin' you like I ain't seen you in so long what's up girl,

I execute my unique approach who be the most  
Willin' to learn and try to be like I got some experience if you need a coach  
Or we can ride tonight and kick it like the homies do  
Me and only you smoke be 's up like a cigarette  
Till I can only see a silhouette and even though you won't admit it yet  
I can tell in time you want me to eventually want to let me get it what? Get it wet (Get it wet) Gimme some Tang  
and Alizã©  
Let me tickle your body, after the party we can pleasure will you come let me  
(Get it wet)  
Let me saturate you body with honey and lick it up  
Stick it up after release and let it rupt' is it enough to  
(Get it wet)  
Try to marinate your mind what's up am I deserving your love  
Just 'cause we up in the club don't think you bogus if you let me  
(Get it wet)  
But you be the only one I be thinkin' of gimme a hug you got me sprung in love
