Prolific Catastrophe

American Head Charge

Won't you be my skin and bones
Now that everything has soured
And obscured down underneath
Everyone deserves the spoils
But you've waited way too long
Now there's no apologiesA plasticized store bought antiquated whore
Thirteen feet buried under the box you left me in
I've taken you for sport a deafening report
The flowers are all dead but I continue to winI don't wanna be you
You've always sucked for free
I don't wanna see you
Prolific catastrophe
With baited breath on pins and needles
The mountain starts to move
To cut the ocean right in half
We're tightening the screwsA plasticized store bought antiquated whore
Thirteen feet buried under the box you left me in
I've taken you for sport a deafening report
The flowers are all dead but I continue to winI don't wanna be you
You've always sucked for free
I don't wanna see you
Prolific catastropheYou're a damaged ingrate much like the rest of us
There's no coincidence it's exactly what you thought it was
I'm accepting thank yous for the offering of you
It worked out well
Just exactly what you thought it was
I don't wanna be you
You've always sucked for free
I don't wanna see you
Prolific catastrophe
