

If the Sun Comes Up

Wade Hayes

If the sun comes up without me tomorrow.

If I leave this world tonight.

Would you really know how much I care about you
or the way you changed my life

I know there would be tears but I hope you'll get past them
and when you think of me you'll think of me laughing
And go on living, don't stop loving,
Please find something you can put your heart into.

If the sun comes up without me tomorrow.

You'll be fine, just let it shine, on you.
If the sun comes up and I'm not there for you
don't you let it cloud your faith.
never lose your dreams and hold on to your passion
and make the world a better place.

I know you won't forget the time we had together
and more than anything, I hope you remember
go on living, don't stop loving,
Please find something you can put your heart into.

If the sun comes up without me tomorrow.

You'll be fine, just let it shine, on you.

I believe you'll watch the sun rise with me for years to come
but should it turn out that I've seen my last one.
