I Need Love

Cheap Trick

I need love
There's nothing to do
Don't need better
Like a kick in the headNo doubt about it
You're an angel
And little angel
This is what I say
I want to you hold you
I want you to touch my handDon't think about it
For a minute
'Cause there's no time like now
Our eyes met
In the evening
Now I want to see you everydayNo doubt about it
You're an angel
And little angel
This is what I say
I want to you hold you
I want you to touch my handDon't think about it
For a minute
'Cause there's no time like now
I need loveI need love
As much as you do
Don't need better
Like a kick in the headNo doubt about it
You're an angel
And little angel
This is what I say
I want to you hold you
I want you to touch my handDon't think about it
For a minute
'Cause there's no time like now
I need love
