

Hot Water

Jefferson Starship

You get what you give, if you give what you get
Ooh, don't forget it, hot water, cold water
You get what you take, if you take what you get
Ohh, we can make itOh, I think I'm gonna skip this shining rock
Across the water, hot water
Send it out and if it's love I wanna see it come straight back
Straight up the way it ought toOh, you say you feel like love is here
Know it's a feelin' of love that you can hear
You can leave right now, you can love today
Let me hear what you have to sayGet what you give, if you give what you get
Ooh, don't forget it, hot water, cold water
You get what you take, if you take what you get
Ohh, we can make itThink I'm gonna skip this shining rock
Across the water, hot water
Send it out and if it's love I wanna see it come straight back
Straight up the way it ought toOh, you say you feel like love is here
Know it's a feelin' of love that you can hear
You can leave right now, you can love today
Let me hear what you have to sayLove, love is what I wanna say, hot water
Love, love is where I wanna stay, hot water
Love, love is what I wanna say, hot water
Love, love is where I wanna stay, hot waterLove, love
Love, love
Love, love, love
Love is where I wanna stay, hot waterWater, hot water
Water, hot water
Water, hot water
