Work It Out

[Jonas Brothers](#)

t all makes sense
Everybody listen to the words she says
Heading towards a consequence
For every bit of ignorance, incompetence
It's time for us to work it out
We got to work, work it out
Before the day is done
We got to be a bit stronger
'Cause we'll need it when tomorrow comes
We got to work, work

Work it out
We got to work, work
Work it out
She made her point
Building up the courage just to raise her voice
Heading towards a consequence
For every bit of ignorance, incompetence
It's time for us to work it out
We got to work, work it out
