Screen Door

Uncle Tupelo

Down here, where we're at
The weather changes, that's the way it goes
Sometimes it snows, when everything's wrong
Sometimes it snows, but when it does, it doesn't last longDown here, where we're at
All we do is sit on the porch
Play our songs, and nothing's wrong
Sometimes friends come around, they all sing alongDown here, where we're at
Everybody is equally poor
Down here, we don't care
We don't care what happens outside the screen doorDown here, where we're at
Sweat drips from the tip of your nose
You wear loose clothes, and you try to stay cool
We all still have a lot of fun, never saw much schoolDown here, where we're at
Everybody is equally poor
Down here, we don't care
We don't care what happens outside the screen door
The screen door, the screen door
