

# In My Life

## Divinyls

How did you get this far lets go  
How did you get this far lets go  
I'm gonna get things  
I'm gonna get things right  
Cause in my memory  
I've seen changes overnight hey I been in my life  
Nothing much happening nothing much happening  
In my life  
Hey it might change so I still remain  
So I still stuck it in my life I might think of something  
When life becomes a fight  
Or take relief in  
What I think is right Hey I been in my life etc. I was born and brought up wrong  
And I don't ' know where I come from  
Mum had me when she was nineteen  
A never was that always has been  
When I grew up I went to school  
They tried to make me a bloody fool  
I woke up and I left that place  
Now I run that long rat race Hey I been in my life  
Nothing much happening nothing much happening  
In my life  
Hey it might change so I still remain  
So I still stuck it in my life Modelling schools training schools finishing schools  
All kettle of fish schools such advantages  
Hard headed solid fisted a few a facts of life  
Such advantages  
Hard times
