

# Same as it Ever Was

## Talking Heads

Uh, shoot 'em all baby  
Just call it in one time for me real heavy  
Back in black, who's the mack  
Sittin' on the back of a Cadillac It's the D motherfucker better pass me the mic  
So I can rock on and drop the styles I write  
I like hip-hop, ya don't stop and all that I rock the freak styles  
And neat styles that are crazy phat, it's making me sick  
Punk get off my dick 'Cause I'm the same motherfucker  
That I ever was, same motherfucker  
But I can't pay attention  
'Cause I'm on that dust My head's not swell kid I'm not gel  
Don't feed me soup just give me the funky loop  
I'll rock it to the best of my ability  
Runnin' mad styles and showin' flexibility 'Cause I'm the man that's on point when I jam a funky joint  
I want some other over there yo, I just don't care shit  
Pass the mic then I'm gonna' tear shit up  
Like a piece of paper Your girl caught the vapor  
When I ran the caper, I ain't rearranged  
So don't look strange, I'm the same motherfucker  
Ain't a damn thing changed 'Cause I'm the same motherfucker  
That I ever was, same motherfucker  
But I can't pay attention  
'Cause I'm on that dust 'Cause I'm hard like stone don't play me soft  
And I rock rhymes frequently  
I drop it off and I'm off in space, I remember your face  
But don't remember your name 'Cause it's all the same as it ever was  
That's what it is money grip don't trip  
Or I'm gonna' bust that lip 'Cause I'm the same motherfucker  
That I ever was, same motherfucker  
But I can't pay attention  
'Cause I'm on that dust Bustin', flippin', skippin', just like a stone on a river  
Ya know I'm gonna' give her whole lotta' flavor  
Criminal behavior used to be how I made it  
But that shits over rated Now I rock rhymes over funky beats  
I fuck fine hookers between satin sheets  
They say money changes people but I won't  
'Cause I'm the same motherfucker that I ever was 'Cause I'm the same motherfucker  
That I ever was, same motherfucker  
But I can't pay attention

'Cause I'm on that dust And ya don't quit 'cause I'm on that dust  
Soul Assassins are on that dust  
(Ha, ha)  
My man J. Disco is on that dust  
Cypress Hill is on that dust  
Funk Doobiest is on that dust
