Lose Yourself In Me

Gala

Lose YourselfTurn off the lights, turn off the noise, leave it all outside
When you touch my lips, enter through the doors, deep into my eyesYou lose yourself, you lose yourself, you lose yourself in me
And you find yourself in me, you find yourself, you finder yourself in meAnd ill set you free uh-oh
In my arms the world is yours
Ill set you free uh-oh
Nothing lasts forever but you and me uh-oh
In my arms the word is yours
Ill set you free uh-oh
On and on and onLaying next to you everything is still you let go of your defences
When we come together and complete each other in this sweetest darknessYou lose yourself, you lose yourself, you lose yourself in me
And you find yourself in me, you find yourself, you finder yourself in meAnd ill set you free uh-oh
In my arms the world is yours
Ill set you free uh-oh
Nothing lasts forever but you and me uh-oh
In my arms the word is yours
Ill set you free uh-oh
On and on and onOn and on and on
And on and on and on
And on and on and on
And on and on and onYou lose yourself, you lose yourself, you lose yourself in me
And you find yourself in me, you find yourself, you finder yourself in meAnd ill set you free uh-oh
In my arms the world is yours
Ill set you free uh-oh
Nothing lasts forever but you and me uh-oh
In my arms the word is yours
Ill set you free
On and on and on
