

# The Momur

[Adrian Belew](#)

Late last night  
I was speaking with my wife  
When she turned into a momur  
Tried to put me uptight  
I said "you don't scare me"  
Then she let out a scream  
That's when my heart started jumpin'  
Like a broken t.v. She was a momur and it was just like I told ya'  
She said "you better watch out, I might bite a big hole in ya" The very next morning  
I was watching cartoons  
When I thought I saw a momur  
It was you know who  
Well, she backed me in a corner  
Tried to kill me with a broom  
And shouted personal remarks  
From across the living room She was a momur and it was just like I told ya'  
She said "you better watch out, I might bite a big hole in ya" Late last night  
I was speaking with my wife again  
When she turned into a momur again  
Tried to put me uptight again  
She took me favorite guitar  
And she smashed it on the floor  
When she danced around on top of it,  
I thought I might get sore She was momur
