

# Silverado

Dylan Jakobsen

See those stars coming out,  
Down on route 67,  
Where we made ground,  
A couple miles,  
There on that Chevy,  
That we drove round,  
After far too many But now something 'bout this picture don't feel right,  
Cause I'm here in the fast lane and she's 80 miles behind She's that Silverado,  
The sound of an engine cranking,  
And everywhere I turn she's the song that it keeps playing,  
She'll be there right beside me,  
When miles feel so long,  
She's that highway that I keep rolling on,  
In that Silverado Yeah It's the life,  
That I've been living,  
On these four wheels,  
That keep on spinnin',  
Oh I've been gone,  
And I've been far and wide,  
And sitting in that drivers seat,  
I can feel her on my right,  
Yeah I feel her all the time Cause she's that Silverado,  
The sound of an engine cranking,  
And everywhere I turn she's the song that it keeps playing,  
She'll be there right beside me,  
When miles feel so long,  
She's that highway that I keep rolling on,  
In that Silverado Yeah that Silverado She's that Silverado,  
The sound of an engine cranking,  
And everywhere I turn  
Everywhere I turn baby She's that Silverado,  
The sound of an engine cranking,  
And everywhere I turn she's the song that it keeps playing,  
She'll be there right beside me,  
When miles feel so long,  
She's that highway  
She's that highway  
In that Silverado

Yeah that Silverado
