Still Around

Robert Cray

Somethin' happened this morning
When I opened my eyes and looked around me
Somethin' strange was in the air
But what it was I just could not pin it downAnd then I heard the shower runnin'
And I knew what it was
You were still aroundHow many times must I tell you
Tired of you and everything you stand for
I thought we'd reached an agreement
I thought everything would be all right, yeahBut when I woke up this mornin'
I knew everything was wrong
Everything was wrong
You were still around, still aroundWhy can't you show some feelin'?
Why can't you understand?
Messed up my whole life
Why wreck my day?Did my best to love you
Now do your best to leave
Can't you see that's what I want
I really needWhy can't you show some feelin'?
Why can't you understand?
Messed up my whole life
Why wreck my day?I did my best to love you
Now do your best to leave
Can't you see that's what I want
I really need, I really needHow many times must I tell you
Tired of you and everything you stand for
I thought we'd reached an agreement
I thought everything would be all rightBut when I woke up this mornin'
Everything was wrong
Everything was wrong
You were still around
