

# It's a Gift

[\*\*Andrea Hamilton\*\*](#)

One by one the leaves have fallen  
Empty branches stretched and calling to the sky  
    Sparkling in the night like diamonds  
Hand in hand down lonely streets the only  
    Sounds of snow beneath our feet  
Laced up tight and cozy cheeks are bright and rosy

Chorus:

It's a gift, it's a gift to see you smile  
It's a gift to be wrapped up in this moment for a while  
    And i love simple memories just like this  
It's precious priceless gift

Verse:

Grab the moon and keep it closer  
    Hold this story deep inside  
Shiny bows and tinsel, i'll never forget
