Stone's Throw Away

Bronze Radio Return

Hold on, this big wave
Will wash us all ashore
With nothing left to saveSo leave here, and be brave
There's nothing more in store
For a man that never gaveSo go find, a remedy
A medicine, we all agree
You should know[Chorus:]
I'm just a stone's throw away
A mile down the road
In a phone booth I'll wait
And when all you call
I hope I hear you say
You'll be sure to bring the cure
And I'll be here another daySo go on, steadfast
This town is slowly closing down
The present never lastsSo hold on, this blind faith
Is harder now to see
In the darkness of this placeThe glass full, the candle burn
And I push-pull when hope returns
You should know[Chorus:]
I'm just a stone's throw away
A mile down the road
In a phone booth I'll wait
And when all you call
I hope I hear you say
You'll be sure to bring the cure
And I'll be here another day
