

# Secret Alibi

## Halloween

Piece by piece you're tearing me apart  
Give to me and try another start  
Brick by brick you really love that game  
Things from which I can't refrain  
So many stories have been told  
I give a damn, they're much too old  
How often will we face the the end of our dreams?  
When will I see it all come true?  
A splendid time for me and you  
Can we expect it bein' nice as it seems?  
Will you be  
My secret alibi?  
Angel of my night  
Can we do it right?  
Let's just try  
Each others love so sweet  
Till we can't deny  
My secret alibi, yeah  
Ding by ding can you dig my dong  
It may come short but it might come long  
Limb by limb you're climbing up my tree  
Making things more fun for me  
So many stories have been told  
I give a damn, they're much too old  
How often will we face the the end of our dreams?  
When will I see it all come true?  
A splendid time for me and you  
Can we expect it bein' nice as it seems?  
Will you be  
My secret alibi?  
Angel of my night  
Can we do it right?  
Let's just try  
Each others love so sweet  
Till we can't deny  
My secret alibi, yeah  
Will you be  
My secret alibi?  
Angel of my night

Can we do it right?  
Let's just try  
Each others love so sweet  
Till we can't deny  
My secret alibi  
Will you be  
My secret alibi?  
Till we can't deny  
My secret alibi, yeah  
Come on
