Let's Go All The Way

Citizens!

Who is that?
Ain't nobody jealous
Everybody has they own
Nobody's locked up
Everybody, everybody is free to roam
Look at that scrubby
With a hottie on his side
Look at them rich kids, poor kids
Everybody together on the same side
And they down to ride
Lets go all the way
Lets go all the way
Lets go all the way
Ain't nobody left out
Everybody gets to go
It could never be too crowded
Come on, we still pickin' up some how
Don't nobody hate you, playa hate you
There ain't no hate at all
Gotta hold out their hands and catch you
They'll catch you and they never will let you fall

You ain't gotta worry all of y'all
Lets go all the way
Lets go all the way
Lets go all the way
Never no sickness, no sickness
Nobody has to die, nobody has to die
Everything's answered
Right then and there, never have to wonder why
Won't nobody rush you
No hurry, be as long as you wanna be
Can you guess what this place is?
Your future, make it a reality
All you have to do is follow me
Lets go all the way
Lets go all the way
Lets go all the way
Lets go all the way

Lets go all the way
Lets go all the way
