[Intro]

We can go all night  
Don't be shy  
I'm bout to blow your mind  
Come on baby  
Whip it one more time  
Hold on tight  
Gon be a bumpy ride  
Come on baby, whip itSo let it whip child  
Let it whip  
Whip it, whip it  
No time to trip child  
So move your hips  
Move your hips[Part 1]  
One, two, three, four  
You ain't never heard nothin' like this before  
Bruce Lee room and I got the glow  
Got hands in the air when I'm at the show  
Black wow got that body woah  
I love when you're movin slow  
I love when you take it low  
Real girls get down on the floor  
You know I whip it real good  
Whip it, whip it real good  
Front day back to your hood  
She know I got the good wood  
Hop in cause the car ain't runnin  
And you can't see me cause the window tinted  
Anything you want, girl go get it  
Cause the card master P ain't got no limit[Refrain]  
So let it whip child  
Let it whip  
Whip it, whip it  
No time to trip child  
So move your hips  
Move your hipsWe can go all night  
Don't be shy  
I'm about to blow your mind  
Come on baby

Whip it one more time  
Hold on tight  
Gon be a bumpy ride  
Come on baby, whip it[Part 2]  
Hit my phone when you lonely  
Said you got some things to show me  
Give it to you how you want it  
Then it's cheese, eggs in the morning  
You got, a smile that's hard to miss  
With a booty so fat make it hard to sit  
I got bands like a parliament  
Treat your body like a brick, it ain't hard to flip  
I whip it real good, whip it whip it real good  
Your man can't do it like I could leave that boy like big foot  
Jump in we about to take off and the room is so clean  
But the leather so soft let your head down and cool [?] top  
The party don't stop we do what we want[Refrain x2]  
So let it whip child  
Let it whip  
Whip it, whip it  
No time to trip child  
So move your hips  
Move your hipsWe can go all night  
Don't be shy  
I'm about to blow your mind  
Come on baby  
Whip it one more time  
Hold on tight  
Gon be a bumpy ride  
Come on baby, whip it  
Come on baby, whip it[Bridge 1:]  
Dance - get low  
Make it bounce, bounce  
Put your hands on your knees, while you working it out  
Bounce, make it bounce, bounce, bounce  
Put your hands on your knees, while you working it out  
And make it bounce, bounce, bounce  
Put your hands on your knees, while you working it out  
Make it bounce (like a basket ball), bounce, bounce  
Put your hands on your knees, while you working it out[Bridge 2:]  
We can go all night  
Don't be shy  
I'm about to blow your mind  
Come on baby  
Whip it one more time

Hold on tight  
Gon be a bumpy ride  
Come on baby, whip it  
Come on baby, whip it[Refrain:]  
So let it whip child  
Let it whip  
Whip it, whip it  
No time to trip child  
So move your hips  
Move your hipsWe can go all night  
Don't be shy  
I'm about to blow your mind  
Come on baby  
Whip it one more time  
Hold on tight  
Gon be a bumpy ride  
Come on baby, whip it
