

# Is Everybody Happy?

[Rick Springfield](#)

If I see one more smiling face in a magazine  
If I see one more pretty girl on my TV screen  
Everybody's pretending, future's burning real bright  
All good children go to heaven, God's still on our side  
He's gonna make it up to you, He's gonna make it up to you  
Baby in this life  
So much pain in the faces that we wear behind the smiles  
We keep too much inside, way too much inside  
Baby, stand up and be the one to testify  
Is everybody happy? No  
Is everybody happy? No  
Is everybody happy? I don't think so  
If I hear one more lover promise me everything  
If I hear one more lonesome ol' cowboy start to sing  
Everybody's elected to carry the party song  
You can't be too protected baby, you can't be too strong  
Never let 'em get to you, never let 'em get to you  
Baby, in this life, we live in a quiet kind of desperation here  
We lock it up inside, lock it up inside  
Baby get on up and be the one to testify  
Tell me how you feel ?  
Is everybody happy? No  
Is everybody happy? No  
Is everybody happy? I don't think so  
Is everybody happy? No
