

# That's All Lies

Jet

My, my, at it again  
Put your finger in the handgun  
I fall down and I try to get up  
But you smack me like a pinball  
Soul, where did it go?C-c-c-climb to the top of the mountain  
But you're still alone  
K-k-k-kicking down your front door  
But you're never home(That's all lies)  
I wanna see, yes I wanna see  
(That's all lies)  
But everybody close the door on me(That's all lies)  
I think I'll download a brand new head  
(That's all lies)  
I'm already deadI think I've seen the light  
Yeah, I, I'm gonna be here a long timeMy, my, at it again  
But you said you don't need it  
My, my, at it again  
But you said you don't need it  
Soul, where did it go?C-c-c-climb to the top of the mountain  
Break your backbone  
K-k-k-kicking down your front door  
But you're never home(That's all lies)  
I wanna see, yes I wanna see  
(That's all lies)  
But everybody close the door on me(That's all lies)  
I think I'll download a brand new head  
(That's all lies)  
I'm already deadI think I've seen the light  
Yes, I think I've seen the light  
I'm gonna be here a long time
