The Ring

Nicole C. Mullen

Got a call from my old friend
Said she fell in love again
But there's one thing, she should know
Real true love will only grow
Grow like flowers from the rain
Mystery, I can't explain
But this one thing
I can do is layout the facts for you
True love is faithful like spring in April
It is as dependable as time
And it is able to hold on and survive
When other love might say goodbye
If you wanna step to me
You better know one thing
This love I got, you'll never get
Without a wedding ring
If you wanna step to me
You better know one thing
This love I got, you'll never get
Without a wedding ring
Friend called back said can it be
I love him, him love me
But he said, he'll never wed
Rather play the field instead
Fields of taller grassy green
Kind ya find in magazines
Well I said if that be so
By all means then let him go
True love is faithful like spring in April
It is as dependable as time
And it is able to hold on and survive
When other loves might say goodbye

If you wanna step to me
You better know one thing
This love I got, you'll never get
Without a wedding ring
A to the B to the C
Elementary fundamentals is the way, you found me

I was lost, lost as could be
Also blind but now I see
A to the B to the C
Elementary fundamentals is the way, you found me
I was lost, lost as could be
Also blind but now I see
If you wanna step to me
You better know one thing
This love I got, you'll never get
Without a wedding ring
What I got is priceless
What I got is special
What I got is precious
What I got is priceless
What I got is special
What I got is precious
What I got is priceless
What I got is special
What I got is precious
What I got is priceless
What I got is special
What I got is precious
What I got is priceless
