Box Set

(intro)

How selflessly
Can you be
If i amuse you for awhile

If i could find
Myself tonight
Would you attempt to hide your smile

We logged a million miles
Fortune hugs and faded smiles
Until we'd ever disagree

Hell's burning through the floor
I just cant fan the flames no more
Can you still stand beside of me

Forever, forever
(music)

While i draw the lines
You take the time
We hate to say that nothing's wrong

But you were surprised
The other night
When i refused to sing your song

I play an old guitar
The strings don't bend it back to far
You see the science in my rage

You play me like a chord
Keep yourself from getting bored
You know i'm saner off the stage

Forever, forever
(music)

We logged a million miles
Fortune hugs and faded smiles
Until we never disagree

Hell's burning through the floor
I just cant fan the flames no more
Can you still stand the sight of me

Forever, Ohhh, ohhhh, oh oh

Naaa, naaaa
