

Somebody F*cked With Me

Buckcherry

Fuck the system, fuck the lawyers
Fuck the sequel, fuck em all
Fuck religion, fuck the country
The politicians, fuck em all Fuck the system, fuck the lawyers
Fuck the sequel, fuck em all
Fuck religion, fuck the country
The politicians, fuck em all And my self destruction, the ball can't drown me, hell that's today
Somebody fucked with my head and direction
Somebody fucked with my damn depth perception
Somebody fucked with the way I'm connected
Somebody fucked with me, somebody fucked with me
Fuck my parents, fuck my teachers
Our founding fathers, fuck em all
Fuck the ratings, the institutions
The fucking media, fuck em all Fuck my parents, fuck my teachers
Our founding fathers, fuck em all
Fuck the ratings, the institutions
The fucking media, fuck em all Creating my disfunction, turn me loose and look the other way
Somebody fucked with my head and direction
Somebody fucked with my damn depth perception
Somebody fucked with the way I'm connected
Somebody fucked with me, somebody fucked with me It's always something
It's always something Creating my disfunction
Fuck em all
Fuck the system, fuck the lawyers
Fuck the sequel, fuck em all
Fuck religion, fuck the country
The politicians, fuck em all
Fuck my parents, fuck my teachers
Our founding fathers, fuck em all
Fuck the ratings, the institutions
The fucking media, fuck em all And my self destruction, the ball can't drown me, hell that's today
Somebody fucked with my head and direction
Somebody fucked with my damn depth perception
Somebody fucked with the way I'm connected
Somebody fucked with me, somebody fucked with me
