## Black Bottom Lighters

She was a fine mother lover walking on the beach  
I was a smooth talking brother from the 623  
I say my name is Billy, hers was Katie  
Said she love the way I smell  
I said it's OG Kush, baby

And now she taking a whiff, she gave me a kiss  
And I like it  
She moving her hips, she licking her lips  
And I like it  
I don't know what I did to get a feeling like this  
But I like it  
Why hide it, can't fight it  
When I like it

We was on the same wave length  
I know it, because she says she felt good
