Drink Tonight

Street Dogs

Go out tonight, to get lit up
Drink tonight, gonna drink tonight
Fourty hours done, I've had enough
Drink tonight, gonna drink tonight
Don't care what my family thinks
Drink tonight, gonna drink tonight
It's my life so pass those drinks
Drink tonight, gonna drink tonightDon't give a damn how this turns out
Drain bottles just to scream and shout
On the run from reality
Poison helps me and go fleeBooze it flows I feel alive
Drink tonight, gonna drink tonight
My body committed to this dive
Drink tonight, gonna drink tonight
Don't care if I go home
Drink tonight, gonna drink tonight
Oblivion is on, I'm free to roam
Drink tonight, gonna drink tonightDon't give a damn where we wind up
Just pour alcohol into my cup
Onn the run from reality
Me, my poison and lunacyI live my life for chaos
Disorder, pain and misery
Don't say a word, accept it
I'm gone, goodbye
That's all she wroteDrink tonight, gonna drink tonight
