Forever

Kefee

FOREVER by kefee
Love so nice, sometimes makes you laugh and sometimes makes you cry, but when it's there cherish it and make it last forever.

It feels so good when you fall in love
Spread your wings and fly like a dove
I only wish this love would last forever
So would you please
Tell me my friend
Will you be there for me till the end
Cos I don't want to play
with your heart no never
Cos together we can make it last forever

you and me we can
Hand in hand we can
Side by side we can
Make it last forever

Love can sometimes be demanding
(love can be demanding)
We can have misunderstanding
(never ever give up on each other)
It doesn't matter
As long we have each other

You and me we can
Hand in hand we can
Side by side we can
Make it last forever

Every woman needs a man
One to lean on to understand
Only one thing can bring
two hearts together
Love is the key
To unlock the doors
It'll ensure there's no more wars
Promise to loving you and ever

Cos together we can make it last forever

You and me we can
Hand in hand we can
Side by side we can
Make it last forever
(4*)
