

Back Home

Golden Earring

Going back right the cities
through the country rivers so pretty
people wonder why I'm going back home.

Just the place where I belong
back home
back home
back home
back home.

Well I'm a round the world rambler
just a fortune gambler.

It's always good to be back home -
round and round the world goes round
got ma friends in every town
from border to border every place I've been
but I've gotta be back if you know what I mean

back home
back home
back home
back home.

Well I'm a round the world rambler
just a fortune gambler.

It's always good to be back home.
